RESOLUTION

STORY

SOME OF US HAVE BEEN LONGING FOR OUR DREAMS ABOUT HEROISM AND HUNGER FOR APPRECIATION BECOMING AN INSEPARABLE PART OF THEIR HIDDEN EXISTENCE.

Imagine a world dominated by vast secret societies. Originally formed to protect the people, over the years they have become dysfunctional and corrupt. The Resolution Company, one of the largest and most ambitious of these organizations, has started taking over their rivals, growing in dominance and power.

Edward Harrows is the head of The Resolution Company. He is merciless in his thirst for absolute control. More and more, the entire world has become reliant on his power, power which is growing by the day and hour. One of Edward's oldest and most trusted secret agents has become a pawn in this insidious quest for world domination. Now this agent must choose between his loyalty to the Company and his very life itself.

One of the rival societies, The Royal Corporation, still stands by the principles upon which it was founded: the welfare and protection of the people. Its leader, James Blanc, with the assistance of his employees, does everything he can to do stop The Resolution Company. However, The Resolution Company is larger and Edward Harrows will not hesitate to use any means at his disposal: friendship, treachery or even death, to achieve his evil ends. He is a vicious adversary with many twisted and unexpected tricks up his sleeve.

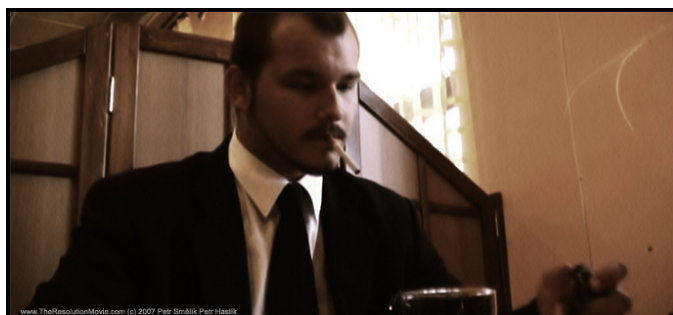

A PERIOD OF DOMINANCE IS COMING. WHO WILL PREVAIL?
THE RESOLUTION IS COMING SOON!

RESOLUTION

ABOUT THE PROJECT

The Resolution is an independent feature film, which brings together filmmakers and creative contributors from all over the world. The basic idea came into being in the Czech Republic in the autumn of 2004, following the debut of Petr Smělík and Petr Hastík as filmmakers. The shooting took more than 60 days in 2005, and grew into a full-feature, psychological thriller. The film was shot with digital technology and in post-production, many of the elements such as coloring, were corrected and well as the addition of many special effects.

In 2006, an international cast of creative people joined the project – mainly for sound, post-production editing and musical composition. Leon Portelance, composer, and his company Songbird Productions / Kaatza Music Publishing based in California, USA, became one of the main musical partners of the movie. Other music was composed by Enrico Cervi from Italy, Marko Hautamäki from Germany, and others.

In 2007, Studio Six Film Sound from Boulder, Colorado, with chief sound designer Andrew Smith, took over the task of audio post-production including a final 5.1 mix.

The film premiere of The Resolution movie is planned in year 2008.

RESOLUTION

CREW

PETR SMĚLÍK

Director, Executive Producer

graduated from the Film School in Zlín, where he was honored as Student of the Year in 2006.

The pivotal movie for him was the puppet animation, The Tokio Brothers, on which he worked as both producer and editor. This movie was featured at the festival Japan Media Arts in October 2006 and also received the grand prize at the festival Tokyo International Anime Fair in 2007. Since then, Petr has worked as an editor and director of a few commercials and documentaries. The range of his experience comes from editing TV magazines, festival minutes, video-clips, documentaries to documentary presentation about the exhibition of Frantisek Vlácil in Prague. In 2007 he created „Vivatscreen Productions“ together with Petr Hastík – a studio which occupies media creation, production and postproduction.

Today, he’s an executive producer of The Resolution project.

PETR HASTÍK

Director, Director of Photography

All the postproduction work connected with the final visualization of the movie and the experience gained from the beginning of realization to the postproduction of „The Resolution“ gave him the opportunity to take part in creation of visual effects for Czech films.

In 2007, he created „Vivatscreen Productions“ together with Petr Smělík – a studio which occupies media creation, production and postproduction.

Beside postproduction, he’s also experienced in creating commercials.

LEON PORTELANCE

Composer

is a classically trained composer, songwriter and orchestrator. He has been playing music since he was six years old and started writing songs when he was twelve. Since then, Leon has written and produced hundreds of songs and scores. He has also worked as a recording engineer and producer. Leon started using MIDI and sequencing back in 1982 and has since become very proficient in all areas of computerized music and audio creation, production, editing and mastering. He is currently owner, composer and producer of Songbird Productions/Kaatza Music Publishing, Sonora, California, USA.

RESOLUTION

MARKO HAUTAMÄKI

Composer

is the creator of the Chaos Research project which originated in October 2003, in Berlin. This project could be described as a melodious mixture of neo-classical, ethno, dark-ambient and electronic music. Marko is also known for music groups like Majesty, Two Witches and Gravehill Paris Witch. He currently composes music for films and computer games and is working on a new album for Chaos Research.

ENRICO CERVI

Composer

studied orchestral composition and classical guitar. Since 1988, he has been exploring the world of electronic music. He has edited two CDs containing instrumental compositions, ambient tracks, and musical tracks for TV and multimedia.

ANDREW SMITH

Sound Designer

Andy's music industry career includes building, owning and operating Colorado Sound Recording, founding Uptown Automation moving faders, creating The Audio Toolbox for TerraSonde, as well as playing in numerous bands.

His film music interest began when Uptown Automation installed their moving fader system into the mixing stages at Warner Hollywood studios (the former Goldwyn sound mixing rooms). There he met several of the top mixers of the time, and watched and learned as they mixed major motion pictures.

An Electrical Engineer, Andy has considerable experience producing, mixing, and writing music, as well as designing electronic products and writing DSP software. He is an adroit sound engineer with a great ear.

Now, he has created Studio Six Film Sound, a full-service film sound post-production facility in Boulder, Colorado.

RESOLUTION

SPONSORSHIP OPPORTUNITIES

The trailer and other material produced by Vivatscreen Productions show that it is an organization capable of producing films with a professional worldwide crew. The Resolution movie project seeks investors and offers partnership opportunities to help meet the financial obligations of basic production consumables.

The project offers the sponsors the chance to:

- ✓ Gain wide commercial coverage through both credit on the film and logos on the popular movie website of the film: www.theresolutionmovie.com
- ✓ Actively take part in the new digital media age.
- ✓ Support new and independent filmmaking talent.
- ✓ Encourage the creation of a unique educational experience open to the most diverse people.
